## PUBLICATIONS

All publications listed below follow the author order conventions for visual computing (e.g. graphics, vision, machine learning): the first author is the primary implementer (typically a PhD student), and the last author is typically the direct supervisor of the first author and the principal investigator on the project. Middle authors vary in role, with students and interns typically listed before faculty and senior research scientists.

Annotation scheme for publications started while employed at Brown University (July 2017 onwards):

- **Blue bold text**: PhD student in Daniel's lab.
- **Purple bold text**: undergraduate or masters student in Daniel's lab.
- **Green bold text**: external PhD student whom Daniel closely mentored.
- **Orange bold text**: external undergraduate or masters student whom Daniel closely mentored.
